**Iron Speed Announces New Subscription Pricing**  
**Monthly subscriptions make Iron Speed Designer accessible to teams of all sizes**

**San Jose, CA – May 24, 2011** – Software development tools-maker Iron Speed, Inc. announced monthly subscription pricing for its award-winning development tool. Iron Speed monthly subscriptions make it easy for thousands more developers to benefit from the productivity enhancing tool. With subscription pricing, consultants can get Iron Speed Designer for the first time at an affordable price, while larger organizations can scale up for projects at a reduced rate. Developers can focus on database schema, customization and end-user requests while Iron Speed Designer takes care of programming.

"With month-to-month pricing, I can build attractive web applications in a fraction of the time, for a very reasonable price. I'll never go back!" – Miles Gibson, Principal, Milestone Software

Iron Speed monthly subscriptions are available online for \$195 per month at [www.ironspeed.com/buy](http://www.ironspeed.com/buy) . Subscriptions are priced individually (per developer, per month) and include software releases and access to technical support. Subscriptions may be canceled at anytime.

**About Iron Speed, Inc.**

Iron Speed is the leader in enterprise-class application development. Our software development tools build database and reporting applications in significantly less time and cost than hand-coding. Our flagship product, Iron Speed Designer, is the fastest way to deliver applications for the Microsoft .NET, Microsoft SharePoint and software-as-a-service cloud computing environments.

Founded in 1999, Iron Speed is well funded with a capital base of over \$20M and strategic investors that include Arrow Electronics and Avnet, as well as executives from AMD, Excelan, Onsale, and Oracle. The company is based in San Jose, CA, and is located online at: [www.ironspeed.com](http://www.ironspeed.com).
